

CNS HOCKEY, INC.  
CALIFORNIA NORTH STARS  
HOCKEY CLUB

Date 11/1/07

**Corporate Sponsorship and financial support is greatly needed!**

Dear Sir or Madam,

We are writing this to inform those in the community who believe in supporting an active healthy lifestyle for today's youth in the greater Sacramento region. The children are in need of your support full filling their dreams of playing one of the fastest growing youth sports in America, ice hockey. Simply put, \$1200.00 can cover an entire team of kids entry fees to a tournament, or \$800.00 can provide a set of goalie gear for the club to outfit a child for the season at the most expensive and important position on the team, or \$100.00 buys the kids pucks to play with. It may not sound like much, but it is truly a valuable asset to the kids.

Who are we? We are The California North Stars Hockey Club, and our mission is to provide Northern California's amateur hockey players the opportunity to participate in an affordable hockey program, which offers our support and direction. The Club's goal is to provide a fundamental, developmental, recreational, and competitive hockey program supported by the community for the community while encouraging youths to reach their personal, social, and educational goals. The Club will strive to provide the opportunity to participate in a competitive Tier and Junior program, as well as, with Northern California's elite amateur hockey players to compete at the highest level of hockey offered in the U.S. and Canada with the support from major corporations. With this support, the Club hopes to create and/or locate educational and sports scholarships and grants to help further young amateur athletes personal endeavors.

We have requested non-profit tax status to put this program into action. We follow the strict rules set forth by USA Hockey, the governing body of hockey in the United States, to assure that the funds donated to the club are evenly disbursed amongst all the players and not just to one portion of the club members. We currently have our In-house hockey program up and running for the kids at this time. Over the following year we hope to help others join in the fun program and get started at following their dream, then making the leap into higher levels of competition as we also continue to improve their sports facilities.

The need for your support is tremendous. We seek your personal and company's financial support. Please feel confident that your donations are going directly to support these determined athletes. If you have any questions or concerns, please contact me directly.

Sincerely yours,

John R. Thompson
